## Environmental and Sustainable Statement

TPS Interiors is committed to preventing pollution and to promote and foster a sustainable policy complying with all relevant environmental legislation, regulations and other environmental requirements. We are proud holders of an ISO 14001.

We will regularly evaluate the environmental impact of our activities, products and services and we will take action to continually improve our environmental performance.

It is our policy to:

- Minimise the use of energy, water and natural resources.
- Reducing the environmental impact by travel and transportation by having a colleagues' car share scheme in place, planning and monitoring deliveries and collections, increasing use of teleconferencing.
- Reduce waste through prevention, re-use and recycling securely where possible e.g. paper.
- Dispose of waste safely and legally.
- Avoid the use of hazardous materials, where practical and use service providers who dispose of such material in an appropriate and environmental friendly method.
- Work with environmentally responsible suppliers, such as ISO14001 holders, FSA and PEFC license holders.
- Prevent environmental damage and minimise nuisance factors such as noise and air pollution to clients and their neighbours.

We will define environmental objectives, targets and improvement actions that are related to this policy and to our significant environmental aspects. We will regularly evaluate progress.

We are committed to providing relevant environmental training and promoting environmental awareness to employees and, where appropriate, to suppliers and to communicating our environmental performance.

We will implement processes to prevent environmental nonconformities and to ensure that we are prepared to deal with potential environmental emergencies.

This policy will be regularly reviewed and updated to take account of organisational priorities and changes, environmental legislation and best practice.
